Successful education programs require the support of the school district community. The board addresses the importance of the role of the school district community in the school district in this series of the policy manual. The board recognizes this support is dependent on the school district community's understanding of and participation in the efforts, goals, problems and programs of the school district.

In this section, the board sets out its policies defining its relationship with the school district community. In striving to obtain the support of the school district community, the board will:

- Provide access to school district records in accordance with law;
- Inform the school district community of the school district's goals, objectives, achievements, and needs;
- Invite the input of the school district community; and,
- Encourage cooperation between the school district and the school district community.

The board secretary shall act as the custodian of public records of the school district. In accordance with law, public records of the school district may be viewed by the public during the regular business hours of the administration offices of the school district. These hours are 8:00 a.m. to 3:00 p.m. Monday through Friday, except for holidays and recesses. All expenses of examination and copying shall be paid by the person desiring to examine or copy the records.

Persons wishing to view the school district's public records will contact the board secretary and make arrangements for the viewing. The board secretary will make arrangements for viewing the records as soon as reasonably practicable, depending on the nature of the request.

Persons may request copies of public records by telephone or in writing, including electronically. The school district may require pre-payment of the costs prior to copy and mailing of the records requested.

Persons wanting copies may be assessed a fee for the copy. Persons wanting compilation of information may be assessed a fee for the time of the employee to compile the requested information. Printing of materials for the public at the expense of the school district will only occur when the event is sponsored by the school district.

Pursuant to Iowa law, the board has determined certain records containing information concerning security procedures or emergency preparedness information developed and maintained by the school district for the protection of students, employees, and visitors of the school district or property under the jurisdiction of the school district shall be confidential as their disclosure could reasonably be expected to jeopardize such persons or property. Such records include, but are not limited to, the following:

- Security or response plans or procedures
- Emergency preparedness or response procedures or protocols
- Evacuation procedures
- Security codes, combinations, and passwords, restricted area passes, keys
- Rescue procedures
- Procedures in the event of catastrophic events
- Tests and evaluations of such procedures
- Vulnerability assessments
- Records that if disclosed would significantly increase the vulnerability of critical physical systems or infrastructures of the school district to attack

Other confidential records may include, but are not limited to, certain student and personnel records.

It is the responsibility of the board secretary to maintain accurate and current records of the school district. It is the responsibility of the board secretary to respond in a timely manner to requests for viewing and receiving public information of the school district.

Policy Title: COMMUNITY RESOURCE PERSONS  
AND VOLUNTEERS

Code No. 903.2

The Board of Directors encourages the use of community resources and citizens to assist in furthering the educational program of the school system. One of the greatest resources available may be found in the citizens of the community who have special knowledge and particular talents to contribute to the educational program.

The board recognizes the valuable resource it has in the members of the school district community. When possible and in concert with the education program, members of the school district community may be asked to make presentations to the students or to assist employees in duties other than teaching. The school district may officially recognize the contributions made by volunteers.

A volunteer is defined as an individual who, without compensation or remuneration, provides a supportive role and performs tasks under the direction, supervision, and control of the school district staff. Volunteers should not work as substitutes for, or replace the functions and duties of, teachers.

Recruitment, training, utilization, and the maintenance of records for the purposes of insurance coverage and/or recognition of school district volunteers is the responsibility of the superintendent.

All volunteer coaches must hold a current coach's authorization. A current list of all volunteer coaches will be maintained in the administration office. A volunteer coach is subject to the same rules regarding extracurricular interscholastic competition as coaches employed by the school district.

Volunteers are considered role models to students and are expected to act professionally at all times, and they shall abide by all applicable laws and regulations as well as school district policies, rules, and procedures while serving as volunteers. No person who is a sex offender who has been convicted of a sex offense against a minor shall be permitted to act as a volunteer, in accordance with law. All volunteers will be subject to a background check prior to any volunteer activities.

The school district reserves the right to evaluate the services of any volunteer and discontinue such services at its sole discretion. All volunteers must be approved by the superintendent of schools. A list of current volunteers including activities they are associated with will be kept on file in the district office.

Persons who wish to visit a classroom while school is in session are asked to notify the principal and obtain approval from the principal prior to the visit so appropriate arrangements can be made and so class disruption can be minimized. Teachers and other employees shall not take time from their duties to discuss matters with visitors.

Visitors shall conduct themselves in a manner fitting to their age level and maturity and with mutual respect and consideration for the rights of others while attending school events. Visitors failing to conduct themselves accordingly may be asked to leave the premises. Children who wish to visit school buildings or sites must be accompanied by a parent or responsible adult.

It shall be the responsibility of employees to report inappropriate conduct by visitors. It shall be the responsibility of the superintendent and principals to take the action necessary to cease the inappropriate conduct. If the superintendent or principals are not available, a school district employee shall act to cease the inappropriate conduct.

Extracurricular activities are an important part of the school program and offer students the opportunity to participate in a variety of activities not offered during the regular school day. Extracurricular activities are provided for the enjoyment and opportunity for involvement they afford the students.

The board expects that students, employees and visitors will treat each other with respect, engage in responsible behavior, exercise self-discipline and model fairness, equity and respect. Individuals violating this policy will be subject to discipline. Students will be disciplined consistent with the student conduct policies. Employees will be disciplined consistent with employee discipline policies and laws. Others will be subject to discipline according to this policy.

Spectators are permitted to attend extracurricular activities only as guests of the school district, and, accordingly as a condition of such permission, they must comply with the school district's rules and policies and other directives. Spectators will not be allowed to interfere with the activity or the enjoyment of the students participating, other spectators or with the performance of employees and officials supervising the extracurricular activity. Spectators, like the student participants, are expected to display mature behavior and sportsmanship. The failure of spectators to do so is not only disruptive but embarrassing to the students, the school district and the entire community.

To protect the rights of students to participate without fear of interference from spectators, and to permit the sponsors and officials of extracurricular activities to perform their duties without interference, the following provisions are in effect:

- Abusive verbal or physical conduct of spectators directed at participants, officials or sponsors of extracurricular activities or at other spectators will not be tolerated.
- Verbal or physical conduct of spectators that interferes with the performance of students, officials or sponsors of extracurricular activities will not be tolerated.
- The use of vulgar or obscene or demeaning language or expressions directed at students, officials or sponsors participating in an extracurricular activity or at other spectators will not be tolerated.

If a spectator at an extracurricular activity becomes physically or verbally abusive, uses vulgar or obscene or demeaning language or expressions, or in any way interferes with an activity, the spectator may be removed from the event by the individual in charge of the event and the superintendent may recommend the exclusion of the spectator at future extracurricular activities.

Upon such recommendation of the superintendent, a notice of exclusion from extracurricular activities shall be sent to the spectator involved. The notice shall advise the spectator of the district's right to exclude the individual from school district activities and events and the duration of the exclusion and that the spectator may be removed and/or prosecuted if he or she attends such an activity or event during the period of exclusion. If a spectator has been notified of

Code No. 903.4(Cont.)

exclusion and thereafter attends an extracurricular activity in violation of the exclusion, the spectator shall be removed from the activity and advised that his/her continued attendance may result in prosecution. If the spectator disobeys the district's order, law enforcement authorities may be contacted and asked to remove the spectator. The school district may also obtain a court order to exclude the spectator from such activities or events.

A spectator may appeal the recommendation of the superintendent to exclude the spectator from attending extracurricular activities to the board. The exclusion shall remain in effect during the pendency of any appeal.

Policy Title: DISTRIBUTION OF NONSCHOOL MATERIALS      Code No. 903.5

The board recognizes that students may want to distribute materials within the school district that are noncurricular. Noncurricular materials to be distributed must be approved by the building principal and meet certain standards prior to their distribution. Distribution of student materials in classrooms for classroom activities may be regulated by the classroom teacher to ensure compliance with curriculum objectives and school district regulations.

It shall be the responsibility of the superintendent, in conjunction with the building principals to draft administrative regulations regarding this policy.

Persons who are not students wishing to distribute unofficial materials shall contact the superintendent's office.

Approved 10/17/02      Reviewed 10/7/21      Revised 11/11/10

I. Guidelines.

Students may have the right to distribute to other students and staff on school premises, at reasonable times and places and in a reasonable manner, unofficial written material, petitions, buttons, badges or other insignia, except expression which:

- (a) is obscene to minors;
- (b) is libelous;
- (c) contains indecent, vulgar, profane or lewd language;
- (d) advertises any product or service not permitted to minors by law (this shall not be interpreted to prohibit advocating for a change in the law);
- (e) constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence or defamation of character based upon a person's race, creed, color, national origin, sexual orientation, gender identity, religion, sex, disability, age or other protected class);
- (f) presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations; and/or
- (g) endangers the health or safety of another person.

II. Procedures.

Any student wishing to distribute unofficial material must first submit for approval a copy of the material to the building principal at least twenty-four hours, but no less than one school day, in advance of the desired distribution time, together with the following information:

1. Name, phone number, and homeroom number of the student submitting the request;
2. Date(s) and time(s) of day of intended display or distribution;
3. Location where material will be displayed or distributed and the manner of distribution;
4. The grade(s) of students to whom the display or distribution is intended.

Within twenty-four hours of submission or one school day, or such longer time period as is reasonably necessary for review of the material, the principal or designee will render a decision whether the material violates the guidelines in subsection I or the time, place and manner restrictions in subsection III of this policy. In the event that permission to distribute the material is denied, the student submitting the request should be informed in writing of the reasons for the denial. Permission to distribute material does not imply approval or endorsement of its contents by the school, the administration, the board, the school district, or the individual reviewing the material submitted.

If the student is dissatisfied with the decision of the principal or designee, the student may submit a written request for appeal to the superintendent. The superintendent will render a decision on the appeal within three school days of submission of the appeal, or such longer time period as is reasonably necessary for review.

At every level of the process the student submitting the request shall have the right to appear and present the reasons, supported by relevant witnesses and material, as to why distribution of the material is appropriate. Students shall also have the opportunity to alter the materials to conform with the appropriate standards.

Permission to distribute material does not imply approval or endorsement of its contents by the school district, the board, the administration, the school, or the individual reviewing the material submitted.

### III. Time, place and manner of distribution.

The distribution of unofficial material shall be limited to a reasonable time, place and manner as follows:

1. The material shall be distributed from a table set up for the purpose in a location designated by the principal, which location shall not block the safe flow of traffic or block the corridors or entrance/exit ways, but which shall give reasonable access to students.
2. The material shall be distributed either before and/or after the regular instructional day.
3. No material may be distributed during and at the place of a normal school activity if it is reasonably likely to cause a material and substantial disruption of that activity.

IV. Definitions.

The following definitions apply to the following terms used in this policy:

1. "Obscene to minors" is defined as:
  - (a) The average person, taking the material as a whole and applying contemporary community standards with respect to what is suitable material for minors of the age to whom distribution is requested, would find that the material appeals to the prurient interest of minors of the age to whom distribution is requested and is patently offensive to prevailing standards in the adult community;
  - (b) The material depicts or describes sexual conduct such as intimate sexual acts (normal or perverted), masturbation, excretory functions, sadomasochistic abuse, or lewd exhibition of the genitals; and
  - (c) The material, taken as a whole, lacks serious literary, artistic, political or scientific value for minors.
2. "Minor" means any person under the age of eighteen.
3. "Material and substantial disruption" of a normal school activity is defined as follows:
  - (a) Where the normal school activity is an educational program of the district for which student attendance is compulsory, "material and substantial disruption" is defined as any disruption which interferes with or impedes the implementation of that program.
  - (b) Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods), "material and substantial disruption" is defined as including, but not limited to, student rioting, fighting or scuffling, unlawful seizures of property, widespread shouting or boisterous demonstration inappropriate for the activity, boycott, sit-in, stand-in, walk-out, or other related forms of activity.

In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecasted including past experience in the school, current events influencing student activities and

behavior, and instances of actual or threatened disruption relating to the material in question.

4. "School activities" means any activity of students sponsored by the school and includes, by way of example but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and in-school lunch periods.
5. "Unofficial" material includes all material except school newspapers, literary magazines, yearbooks, and other publications funded and/or sponsored or authorized by the school. Examples include leaflets, brochures, flyers, petitions, pins, buttons, placards and underground newspapers, whether written by students or others.
6. "Libelous" is a false and unprivileged statement about a specific individual that tends to harm the individual's reputation or to lower him/her in the esteem of the community.
7. "Distribution" means circulation or dissemination of material by means of handing out free copies, selling or offering copies for sale and accepting donations for copies. It includes displaying material in areas of the school which are generally frequented by students.

V. Disciplinary action.

Distribution by any student of unofficial material prohibited in subsection I or in violation of subsection III may be halted, materials seized, and students may be subject to discipline including suspension and expulsion. Any other party violating this policy may be requested to leave the school property immediately and, if necessary, local law enforcement officials will be called.

VI. Notice of policy to students.

A copy of this policy will be published in student handbooks and posted conspicuously in school buildings.

Policy Title: TRANSPORTING STUDENTS IN  
PRIVATE VEHICLES

Code No. 904.1

Generally, transporting students for school purposes shall be done in a school bus or vehicle owned by the school district and driven by a school bus driver or school employee. It shall be within the discretion of the superintendent to determine when it is appropriate for students to be transported in private vehicles for school purposes and to ensure compliance with applicable laws in connection with same.

School employees and volunteers transporting students for such school purposes in private vehicles must have a valid driver's license and be specifically approved by the superintendent for the assignment. Private vehicles will be used only when the vehicle has been determined to be in good operating condition and meets all applicable safety requirements, proof of insurance in the appropriate coverages and limits has been supplied to the superintendent, and, where practicable, the parents of the students to be transported have given written permission to the superintendent. The school district assumes no responsibility for those students who have not received the approval of the superintendent and who ride in private vehicles for such school purposes. The school district will advise parents/guardians and students in advance if transportation will not be provided by the school district for a particular activity. If transportation will not be provided by the school district, then the responsibility and corresponding liability for any transportation to and from the activity shall rest solely with the students and their parents/guardians.

If a private vehicle is used, the rate of reimbursement for its use shall be at the rate established by the Board of Directors for reimbursement of approved travel expenses.

It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

Approved 10/17/02      Reviewed 10/7/21      Revised 10/7/21

The use of students, the school district name, or its buildings and sites for advertising and promoting products and/or services of entities and organizations operating for a profit shall be disallowed. Nonprofit entities and organizations may be allowed to use students, the school district name, or its buildings and sites if the purpose is educationally related and prior approval has been obtained from the board.

Educational facilities, teachers, and students shall not be used in any manner for the promotion of sale of services or products of agencies or organizations operating for profit. The Board of Directors specifically forbids such activities as the following:

1. Distribution by students of pamphlets urging students, parents, and others to purchase services or products sold for profit.
2. The sale to students by teachers of products and/or services, except in relation to production by students as part of the program.
3. Similar activities which would involve the teachers and students and which would interfere with the normal time and activities of the school.

Specifically exempted from the provisions of this policy shall be a student insurance program.

Where the Board of Directors and the Superintendent of School feel that the educational gain outweighs any promotional purpose, prior approval can be given by the Board to an activity which is otherwise permitted by law.

Policy Title: COMMUNITY USE OF SCHOOL  
DISTRICT BUILDINGS & SITES  
& EQUIPMENT

Code No. 905.1

The buildings and sites and equipment of the school district will be made available for a fee to local nonprofit entities which promote cultural, educational, civic, community, or recreational activities. Such use will be permitted only when the use does not interfere with or disrupt the education program or school-related activities, the use is consistent with applicable law and school district policies and regulations, and the use will end no later than midnight. It is within the discretion of the board to allow for-profit entities to use school district buildings and sites and equipment for not-for-profit activities. The board reserves the right to deny use of the buildings and sites and the equipment to any entity. It shall be within the discretion of the superintendent to allow use of school district buildings and sites on Sundays.

Organizations, individuals, and other entities who wish to use the school district property must apply at the superintendent's office. It shall be the responsibility of the board secretary or superintendent to determine whether the school district facility requested is available and whether the application for use meets board policy and administrative regulations. It shall be the responsibility of the superintendent and board secretary to provide application forms, obtain proof of insurance, and draw up the contract for use of school district property. Such application and agreements must be executed prior to use of the facility, and any required payments shall be made in advance of such use. The board reserves the right to disallow a use approved by the superintendent.

Activities of the user in the school district buildings and sites shall be supervised by an employee of the school district unless special prior arrangements are made with the superintendent. Notwithstanding the foregoing, entities shall be responsible for supervising the activities conducted at the facilities and for assuring the safety of persons participating or attending, and for complying with applicable laws and all district policies and rules pertaining to the use of school district facilities. Inappropriate use of school district facilities and equipment may result in additional fees charged to, or the inability of, the entity to use school district facilities or equipment in the future. The employee shall not accept a fee from the user. If appropriate, the school district employee may be paid by the school district.

The board may allow groups, such as the Boy and Girl Scouts and 4-H, to use the buildings and sites without charge. While such groups may use the buildings and sites without charge, they may be required to pay a custodial fee.

It shall be the responsibility of the superintendent to develop a fee schedule for the board's approval and to develop administrative regulations regarding this policy.

Whenever a citizen is aggrieved by the action of any employee, such citizen may file a written complaint with the employee's immediate supervisor after discussing the concern with the employee (unless the employee in question is a classified employee, in which case the citizen need not first discuss the concern with such employee). In the event that the matter is not satisfactorily resolved, the complaint process will follow this order:

- [1] Other supervisory personnel or administrators in the line of responsibility
- [2] The Superintendent of Schools
- [3] The Board of Directors

The Board of Directors shall strongly encourage that this chain of appeal be followed.

No appeal will be heard by the Board of Directors and no charges against the employee will be investigated or acted upon by the Board unless reduced to writing, or presented in person to the Board. The Board may refuse in its sole discretion to take action on the complaint, in which case the Superintendent's decision will be final, or the Board shall decide the matter as soon as practicable. The employee may respond to the complaint at the meeting at which the complaint is to be heard by the Board. Prior to any meeting at which a complaint is heard by the Board, it shall be determined whether the matter may legally be discussed in closed session and whether the employee wishes to have the matter discussed in closed session.

If there is another, more specific complaint procedure relating to a matter, the complaint should be brought under that procedure rather than pursuant to this policy.
